

March 29, 2010

To Whom It May Concern:

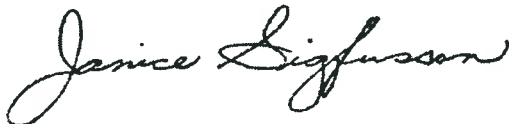

Your investments in technology are important. They bring added value to your business and can help increase your bottom line. NEC Canada, Inc. and NATG can help your business increase productivity, cut costs, and manage your operating environments more efficiently.

NEC and NATG's philosophy is that no customer should be left behind when we innovate and deliver new technologies that can put your people at the center of business communications.

NATG is an award winning certified systems integrator who has achieved the highest status of "**Triple Diamond**" NEC Associate in Western Canada. The NATG team of senior technology specialists understand the ever changing needs of your business. They have an outstanding reputation in field installation and service both far and near. NATG has complete remote maintenance and troubleshooting facilities and maintains full back-up parts and supplies in their inventory for all NEC products. NATG technicians are NEC certified on all NEC advanced applications and NEC equipment. NATG has been delivering 30 years of excellence in sales and service to businesses throughout Western Canada.

NEC and NATG want to be your trusted advisor to help your business maintain a competitive advantage and increase your bottom line.

Sincerely,

Janice Sigfusson
Associate Manager, Western Region
NEC Canada, Inc.
